Location: Indore, Madhya Pradesh, India

Professional Summary

- Highly skilled Full Stack Web Developer with 3 years of professional experience in developing scalable, secure, and high-performing web applications using JavaScript, React.js, Next.js, Node.js, and MongoDB.
- Proficient in WordPress development (Elementor, ACF) and front-to-back web architecture, including RESTful API design, SSR (Server-Side Rendering), and database management.
- Adept at collaborating in Agile/Scrum environments, optimizing SEO performance, and deploying production-ready software with clean, maintainable code.

Core Skills

- Frontend Development: HTML5, CSS3, JavaScript (ES6+), React.js, Next.js, Tailwind CSS, Bootstrap
- Backend Development: Node.js, Express.js, REST API, MVC Architecture
- Database Management: MongoDB, MySQL, Sequelize ORM
- CMS Expertise: WordPress, Elementor, Advanced Custom Fields (ACF), cPanel
- Other Skills: On-Page SEO, JWT Authentication, Server-Side Rendering (SSR), Git & GitHub, Agile & Scrum

Professional Experience

Namastetu Technologies — Full Stack Web Developer

Jan 2022 – Present | Indore, Madhya Pradesh

- Designed, developed, and deployed multiple end-to-end web applications using MERN stack and Next.js.
- Implemented role-based authentication, RESTful APIs, and JWT tokenization to ensure security and scalability.
- Built dynamic and responsive e-commerce platforms, improving performance by 30% through SSR optimization.
- Created and maintained custom WordPress websites using Elementor and ACF, integrating backend logic for dynamic content management.
- Automated repetitive processes using cron jobs and API-based scheduling systems, reducing manual effort by 80%.

- Collaborated with UI/UX teams to improve conversion rates and implement responsive, accessible layouts.

Key Projects

E-Commerce Platform (Next.js, Node.js, MongoDB)

- Designed a role-based e-commerce system with multiple dashboards and dynamic product attributes.
- Utilized Next.js SSR and React Context API for real-time data handling and state management.
- Applied Agile methodology for iterative development and testing, improving deployment time by 25%.

Technologies: Next.js, Node.js, Express.js, MongoDB, Bootstrap, JWT

AI-Powered Blogging Automation System

- Built a fully automated blogging platform integrating Google Sheets API, Gemini API, and MongoDB.
- Implemented cron-based scheduling for auto-generating SEO-optimized blogs at specific time intervals.
- Streamlined workflow, automating 100% of manual blog publishing.

Technologies: Node.js, Next.js, MongoDB, Gemini API, Cron Jobs

Custom WordPress Websites

- Designed and customized WordPress sites using Elementor and Advanced Custom Fields for marketing clients.
- Developed custom themes, configured plugins, and optimized Core Web Vitals for faster load times.
- Implemented on-page SEO strategies, improving search engine rankings and site visibility.

Technologies: WordPress, Elementor, ACF, JavaScript, PHP

3D Developer Portfolio with AI Chatbot

- Created an interactive developer portfolio using Next.js and Tailwind CSS, featuring Spline 3D models.
- Integrated an AI chatbot that responds contextually to website-related queries.
- Enhanced visitor engagement and modernized presentation for personal branding.

Technologies: Next.js, React.js, Tailwind CSS, Spline 3D

Certifications

- Employee of the Month – Namastetu Technologies
- React.js Developer Certification – Great Learning
- Recognition of Excellence – For innovation, contribution, and team participation at Namastetu Technologies

Education

Bachelor of Engineering (Computer Science)
Indore Institute of Science & Technology | 2016 – 2020

Senior Secondary Education
Metro Higher Secondary School | 2014 – 2015

Additional Competencies

- Full Stack Application Development
- API Development and Integration
- Database Schema Design and Optimization
- Agile Development Lifecycle
- Performance Tuning and Debugging
- SEO Optimization and Digital Strategy
